LUCAS DEUTSCHMANN

FIFTH-YEAR GAME DESIGN STUDENT

PROFILE

Extremely passionate, I thrive to improve my skills as a Game Designer and Level Designer. I am confident in my ability to work in a team, I enjoy being able to lend a helping hand and working together.

HARD SKILLS

Prototyping & Programming
I am able to prototype new mechanics and ideas using **Unity Engine** and **C#** as well as **UE4** and **blueprints**.

Level Design
I can create levels using blocking within **UE4** or **Unity**.

Versioning
I am familiar with source control using **Git Kraken** and **Sourcetree** as well as Perforce

SOFT SKILLS

Teamwork
I am used to working in **team projects** and with people from different specialities or lines of work.

Listening and agreeable
I am always willing to lend a **helping hand** and to take **advice** or **feedback** from co-workers.

Versatility
Having skills in **prototyping**, **Level Design** and **Game Design**, I am able to effectively work with programmers and other game designers.
